EXAMINER'S AMENDMENT

1. Claims 1-2, 5-10 (renumbered as 1-8 respectively), are allowed. The following is an examiner's amendment to the claims.

Permission for this amendment has been granted by Applicant via telephone call to Michael A. Glenn on May 25, 2005, and to Ivy Y. Mei on May 27, 2005.

2. Please amend the claims as follows:

Please cancel claims 3-4, 11-13 without prejudice.

Please replace claim 1 with the following claim:

1. (Currently Amended) A computer implemented method for generating and delivering Web page content comprising media, said method comprising:

parsing a URL containing proprietary tags to determine:

a content generation procedure to execute and corresponding input to said procedure;

dynamic modifications to perform on said media;

user profile characteristics; and

proxy-cache control;

generating a unique final lookup key for said media;

checking a media cache, using said final lookup key;

if said media exists in said media cache, then

passing control to said proxy-cache control; and

delivering said media;

if said media does not exist in said media cache, then

separating dynamic media system tags from content generation control tags; and
generating a unique intermediate image lookup key;
checking said media cache using said intermediate image lookup key;
if said intermediate media exists in said media cache, then
using said intermediate media for further processing;
if said intermediate media does not exist in said media cache, then
generating and caching said media, using said intermediate image lookup key;
determining if dynamic processing is required and, if affirmative, then
operating upon said media by a dynamic content generator,
determining if content type is valid and, if negative, then
converting said media automatically to a valid type;
customizing said media for specified browser or client attributes using a user
profiling system;
attaching any specified cache-control directives to a response; and
delivering said media.
